

Virtual School Checklist

Key features to look for when choosing an online school

Deciding on your child's education is one of the most important decisions you will make. If you have been searching for a virtual learning option for your child, you know that there are many programs to choose from, and it can be overwhelming to decide which is the best option for your family.

Here is a checklist to help you know what to look for when choosing a virtual learning option for your child.

☐ Accredited and Approved Program

Accreditation ensures that your child is receiving a comprehensive, quality education. If you move or transfer or choose another education option, your child's transcript will be recognized and accepted.

☐ Engaging, Research-Based Curriculum

A quality curriculum created for learners at all levels ensures that students are motivated to learn and master the skills they need to be successful.

☐ A Wide Variety of Courses

A comprehensive catalog provides course options for students at all levels of learning and interests— whether they have unique learning challenges or are advanced and want to accelerate their learning with additional enrichment, honors, career and technical education courses, or courses for use with AP® exams.

☐ **Support from Certified Online Teachers**

Certified teachers trained in online instruction understand what it takes for students to be successful in a virtual environment and offer students and parents support when they need it.

☐ **Flexible Learning Pace and Schedule**

Virtual learning should be able to offer families a certain amount of flexibility and freedom to move forward at a pace that works for them while meeting their learning goals.

☐ **Local Support and Social Opportunities**

Choosing a program with local ties offers additional benefits to families that include optional extracurricular and social opportunities, as well as access to specialized resources and technical support.

offers all of this and more!

**Accredited
Program**

**Award-
Winning
Curriculum**

**300+
Courses**
