

Summer Learning

Online courses with teacher support

Grades • Tuition-Free

Attention Parents:

Looking for a way to keep your child learning this summer?

Our district is partnering with Edmentum's EdOptions Academy to offer high-quality, flexible, online summer learning to our students this summer through our summer learning program.

This summer learning program offers students a way to keep their minds sharp and continue learning over the long summer months. Students can catch up on learning, prepare for the year ahead, expand their learning in a favorite subject, or explore specific careers and interests.

Students who participate will have access to:

- Flexible online courses that work with students' busy summer schedules
- Hundreds of courses to choose from, including core, electives, world languages, and career and technical education courses
- Certified teachers who lead online classes and support students when they need it via phone, text, email or videoconferencing
- 24/7 accessibility to engaging, award-winning Edmentum™ courses

Just a little summer learning can make a big difference!

Studies show that just 20 days of enrichment learning helps keep young minds active over the summer months and can offer benefits such as:

Preparing students for an easy transition to the next grade

Improving academic skills

Increasing college and career readiness
