

Accelerate Summer Learning

Summer School

Quickly launch and scale with certified virtual teachers and flexible enrollment

Fit tight summer timelines with mastery-based learning and targeted tutoring

Prepare more students for the fall by meeting diverse needs through one provider

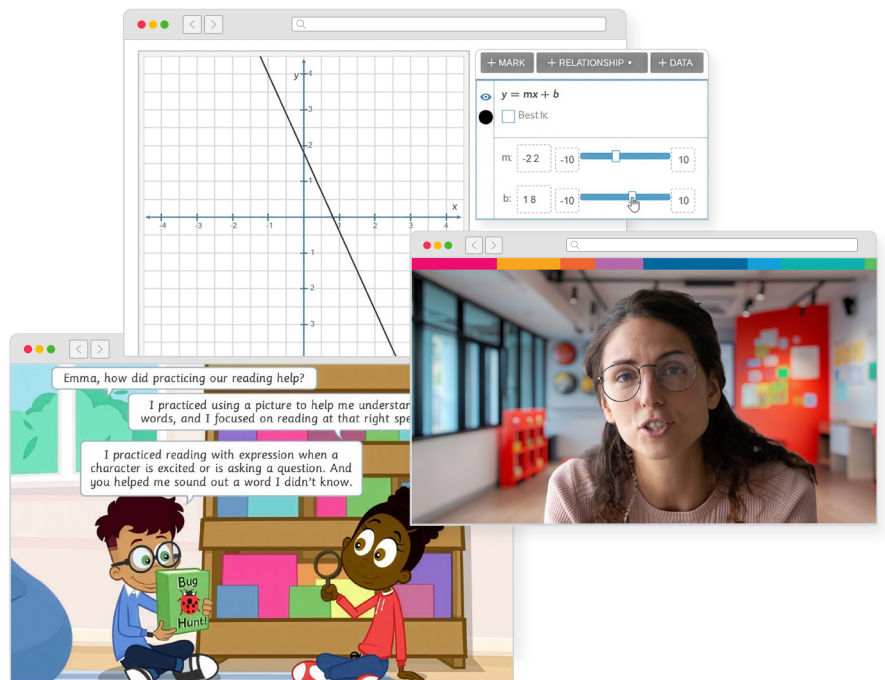

Start in summer, then confidently scale to full-year programs when you're ready

Enhance and expand your summer learning options

Summer learning works—but running it can strain staffing, facilities, and district resources. Edmentum makes it easier with proven, scalable, K-Career programs and instructional services that make it possible to expand summer learning so more students can catch up, get ahead, and accelerate.

Launch an In-District Virtual Summer Academy

With EdOptions Academy, districts can offer a wider range of summer courses from credit recovery to advanced learning, even when only a handful of students need it. For as little as \$80 per student per course, there are no staffing limits and no enrollment minimums—just more opportunities for every learner.

High-Impact Summer Tutoring

Supercharge academic recovery with high-dosage, research-backed virtual tutoring that doesn't add staff or stretch existing teams. By providing personalized, skill-focused support in core subjects, students can accelerate learning by 1-2 months ahead of fall.

"I looked at other providers, and the rigor just wasn't there [...] Edmentum makes it simple. I don't have to spend hours building everything from scratch. It's already aligned and ready to go. That saves me time I can spend on kids."
