Calvert Learning

CALVERT LEARNING

Digital curricula designed to build a strong foundation

Help students develop a lifelong love of learning with student-centered, project-based, K–5 digital curricula. Courses in ELA, math, science, and social studies—as well as art, art history, health, and PE—leverage high-quality resources and tools to support instruction and motivate students to progress toward and achieve subject mastery.

Students Display Their Knowledge

Students engage with curricula that follow the PLUS (project, learn, use, and show) framework to bring learning to life.

Educators Provide Flexibility

Teachers deliver lessons where needed—whether in a physical classroom or a virtual environment.

Caregivers Play an Active Role

Parents, guardians, and caregivers access reports, feedback, and notes to support their learner's progress.

Additional Service to Meet Student Needs

Maximize teacher talent and instructional time with our virtual instructional coaching and grading services.
