

Drive Academic Success For Your English Language Learners

Drive Academic Growth for English Language Learners with Assessments

Our K-12 integrated assessment solutions cater to your English language learners' (ELLs) diverse teaching and learning needs in and out of the classroom, ensuring every student can experience growth and a truly personalized and tailored learning experience.

Our targeted assessment tools support teachers with rigorous assessment options. We offer pre-built benchmarking, diagnostic, formative, and summative assessments that can be used at any time of the year. The testing options within our products can help you pinpoint exactly where students are in their learning journey, so you can provide the right support at the right time. Integrations with NWEA MAP and Renaissance Star are also available to kickstart learning using schools' existing data without the need for additional testing, so you can easily generate learning paths. Our data dashboard and customizable reports give educators actionable data to drive instruction and achieve student success.

Drive Academic Growth for English Language Learners with Assessments

How can our Assessment tools support your ELLs?

- Our assessment products are aligned to WIDA standards
- Various ELL specific tools are available, including a translator option, click to speak, audio support, highlighting text and dictionary on the practice sessions and lessons
- Content can be customised to cater for various languages, for example printable worksheets that be edited by educators
- Students have access to content in all ages ranges to suit their specific needs and their understanding of the English language
- Engaging visuals and animations support and reinforce learning
- Generate actionable data to monitor ELL students and provide informed support.

The real-time tracking of student success means educators can identify meaningful learning trends and support language proficiency and academic success through data points like progress, growth, pacing, and usage. Our flexible approach to learning offers additional accommodation options for students. From allowing for more individualized support to built-in text-to-speech functionality ensuring content can be read aloud, we're here for your ELLs.

Target Different Learning Modalities

Validated by our WIDA PRIME correlation, Exact Path supports different learning modalities by incorporating listening, speaking, reading, and writing support into individualized instruction.

Listening

Assessment-driven learning paths deliver media-rich and interactive lessons.

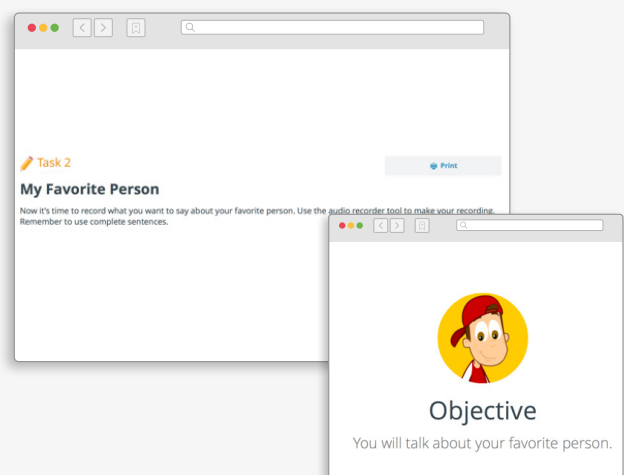

- Lessons include closed captions for videos and instructionally appropriate reading passages.
- Built-in text-to-speech functionality ensures reading passages can be read aloud.
- Students are asked to listen to instructions for each task and complete assignments based on audio content.

Speaking

Exact Path encourages students to engage in collaborative discussions and activities and to record verbal presentations to meet rigorous speaking and listening standards.

- A familiar cast of characters engage in discussions and present information to students as they work through their lessons.
- Speaking skills are further developed in optional Teacher Graded Activities and additional offline resources for more comprehensive support.

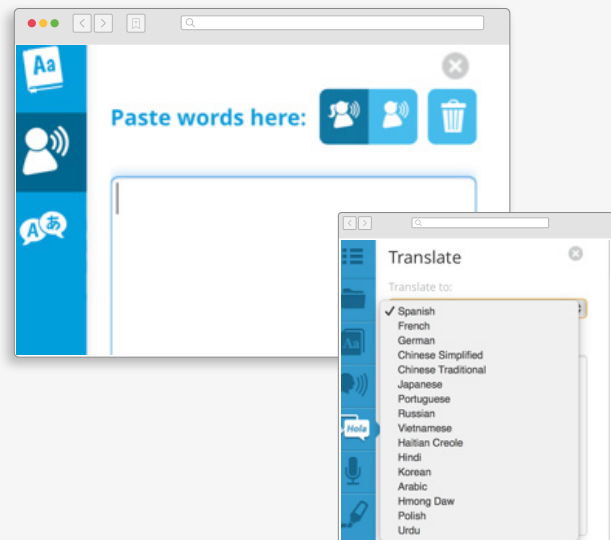

Target different learning modalities

Reading

Exact Path lessons are supported with vocabulary development, reading comprehension, grammar, and word study instruction.

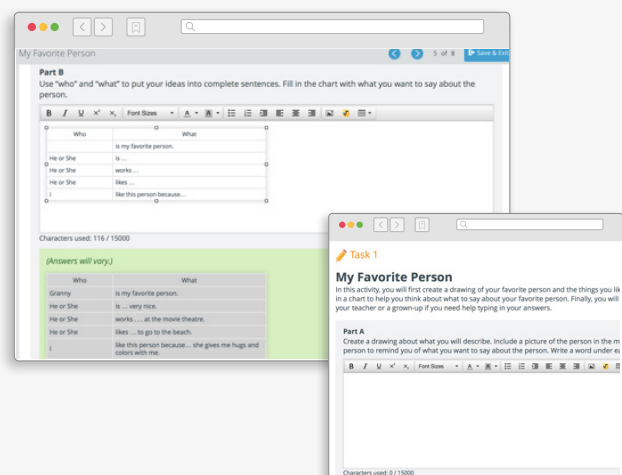

- Reading content includes genres like short stories, nonfiction, biographies, and poetry.
- Reading skills are taught throughout the program in vocabulary, word analysis, phonics, fluency, and reading comprehension activities.
- Vocabulary words are highlighted, and students can use the on-page tools for translation, definitions, and audio support.

Writing

Exact Path fosters development of the writing process by enabling students to practice drafting, revising, and editing written responses.

- Writing skills are reinforced throughout the program as students practice writing sentences, answering questions, and developing written presentations.
- Writing activities are supported with multistep processes that include models and graphic organizers.

Supporting English Language Learners with Digital Curriculum

All products across our portfolio fully support distance, hybrid or virtual learning, enabling flexible education continuity at all times. With our digital curriculum, you can get students back on track with credit recovery. Exemptive pretests ensure that students only work on what they need to, and engaging, scaffolded instruction keeps students motivated to recover skills, units, or entire credits. Our course offering includes core subjects, courses for use with Advanced Placement exams, career and technical education (CTE), electives, dual diplomas, world languages, and ELL Foundations courses to help ELLs build English-language proficiency.

How can our digital curriculum tools support your ELLs?

- Our digital curriculum products are aligned to ELPA 21 and WIDA standards
- Our 6–Adult ELL courses help entering, emerging, and developing ELL students improve English-language proficiency and build content knowledge that addresses the four language modalities: listening, speaking, reading, and writing
- Various ELL specific tools are available, including a translator option, click to speak, and a highlighter text option.

More about our ELL Foundations library

With our digital ELL Foundations library, you can give your entering, emerging, and developing ELLs the targeted support they need to accelerate their English-language acquisition. At the same time, they can make progress toward successfully achieving college and career readiness. With these fully online courses, you can scale how you support ELLs, whether learning takes place in person or virtually.

Scale ELL support with two robust courses

The Newcomer course in the ELL Foundations library consists of 23 lessons that facilitate the introduction of basic vocabulary and sentence structure necessary for beginning English language learners.

The Level 1 course consists of 32 lessons built using multi-genre, multicultural reading selections with Lexile® measures. As students work through the lessons, they continue to develop their vocabularies, hone their English reading skills, and sharpen their English syntax and grammar control.

Deliver Rigorous, High-quality Instruction with Educational Services

With Edmentum, you can reach more students with K-12 virtual instruction. Our wraparound services support student centered virtual learning, and offer flexible options to accommodate a variety of learning needs and schedules. Fully accredited by Cognia, we can support you with virtual learning options, enabling teachers to focus on in-person instruction. Our certified educators offer live, virtual math and reading lessons that focus on students' essential skills to master at each grade level and subject. With fully personalized learning, ELLs support can be targeted for their specific needs.

In addition to partnering with schools to provide virtual school options, EdOptions Academy also offers instructional support services to help your teachers become experts in virtual teaching and learning. Edmentum's mentoring program provides teachers the support and training they need to teach successfully in a virtual setting.

How can our Educational Services support your ELLs?

- Students can immerse themselves into different forms of engaging material, such as videos and audio content
- Students work closely with supportive, certified online teachers who are committed to targeting their needs
- Activities are self-paced, enabling learners to take all the time they need
- Translation support is available to assist ELLs as and when they need it
- Additional instructional time called Foundational Skills Instruction Service is available to help students master key skills before moving on to more difficult concepts
- FEV Tutor can support learners on demand, 24 hours a day for their specific ELL requirements
- If the in-school ELL department wants to use their own teachers, Edmentum can provide a teacher mentorship program to support schools in developing their online curriculum offering.

About Edmentum

A world-class partner you can trust

Edmentum is founded in innovation and committed to being a trusted partner to create successful student outcomes everywhere learning occurs. We can give you the resources – and the expertise – to leverage the power of effective learning solutions.

Grades K-12

US, UK & International

Growth

We know that not every student learns in the same way and at the same pace. Edmentum puts individual student growth first - giving students the tools to take control of their own academic journey while providing educators insight to facilitate targeted support.

Assessment

Our products come with rigorous assessment options, including diagnostic assessments, online tests, high-stakes test preparation, and more. The testing options can help you pinpoint exactly where students are at in their learning.

Research

All of the product developments we make are fuelled by your opinions, feedback, and research. Our research papers and case studies will help you gain a deeper insight into our success in supporting schools around the world.

Curriculum

Edmentum programs are aligned to globally recognized standard. Our products encompass and address a vast array of courses and subjects (over 600) and are fully aligned to curriculum standards.
