

More Opportunities for Your English Learners

All students deserve a path to success, regardless of their English language proficiency level. Apex Learning provides English Learners with embedded tools and support so they can access to the same rigorous instruction as their peers.

Fluency Through Context

90% of a language learner’s new words comes from context.¹ So, Apex Learning digital curriculum focuses on building and practicing vocabulary in context. Intuitive examples are coupled with responsive learning activities, images, video, audio, text, and on-demand supports.

“What’s unique are the features the curriculum has built in to support EL students. Apex Learning has the supports in place to make content accessible.”

Nicole V.
 Program Coordinator

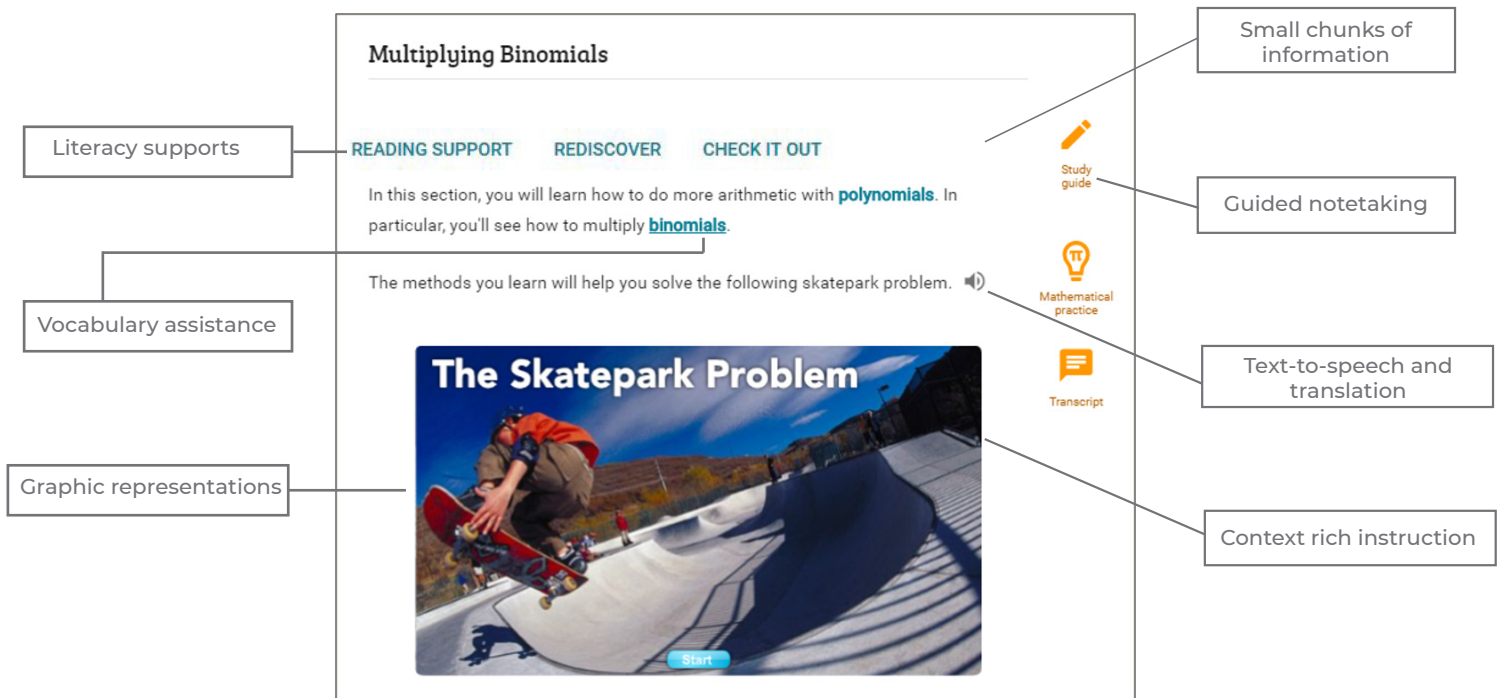

Mastery Through Output

Practicing words is as important as learning them.² That’s why throughout Apex Learning, students build and apply their language skills, increasing their word acquisition through repeated interactions.³

Apply	Process	Write	Respond
Students regularly apply their language skills in short, interactive activities.	Students process what they learn through written reflections—predicting, analyzing, and explaining new concepts in every activity.	Students receive step-by-step guidance and automatic feedback for each written assignment like essays, labs, and projects.	English learners build word comprehension in reading activities where they read, interpret, and respond to increasingly complex passages.

On-Demand Support

Embedded scaffolds and supports help make the instruction accessible. Because EL students may need varying levels of assistance, the opt-in nature of many of the supports individualizes the learning experience and helps build the confidence needed for independent work.

Our Commitment to You and Your Students

Our goal is your goal: to ensure more opportunities for more English learners. To find out how Apex Learning can help your EL students achieve academic success, call us at (206) 381-5600 or visit our website at www.edmentum.com.
