

How many squares  
can you find on  
the disco floor?

You can find 14 squares on the disco floor! Did you find them all?

1      2      3      4

5      6      7      8      9

10      11      12      13      14

If the floor looked like this, how many squares could you find?
