Everyday Materials Worksheets

What Does This Pack Include?

This pack has been created by teachers, for teachers. In it, you'll find high quality Activity Sheets, their answer sheets and a selection of ThinkIts to support your students to develop their knowledge about the everyday materials that surround them.

To go directly to the content, simply click on the title in the index below:

HARDWARE STORE:	
Learning Objective: Everyday materials Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water and rock.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
SPLISH SPLASH:	
Learning Objective: Everyday materials Describe the simple physical properties of a variety of everyday materials.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
TREASURE HUNT:	
Learning Objective: Everyday materials Describe the simple physical properties of a variety of everyday materials.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
BITS AND PIECES:	
Learning Objective: Everyday materials Compare and group together a variety of everyday materials on the basis of their simple physical properties.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
PICK AND MIX:	
Learning Objective: Everyday materials Compare and group together a variety of everyday materials on the basis of their simple physical properties.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
PICNIC STOP:	
Learning Objective: Everyday materials Compare and group together a variety of everyday materials on the basis of their simple physical properties.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
ROCK AND ROLL:	
Learning Objective: Everyday materials Compare and group together a variety of everyday materials on the basis of their simple physical properties.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
METAL MATTERS:	
Learning Objective: Everyday materials Describe the simple physical properties of a variety of everyday materials.	<ul style="list-style-type: none">• ThinkIt Question• ThinkIt Answer
SAME SAME:	
Learning Objective: Everyday materials Describe the simple physical properties of a variety of everyday materials.	<ul style="list-style-type: none">• ThinkIt Question• ThinkIt Answer
GRANNY'S HOUSE:	
Learning Objective: Uses of everyday materials Identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses.	<ul style="list-style-type: none">• Activity Sheet• Activity Sheet with Answers
GRANNY'S HOUSE:

Name: _____ Class: _____

Here is Manu in his hardware store.

Use the words in the boxes below to label the objects correctly.

One has been done for you.

metal

paper

fabric

clay

glass

Plate
clay

2

Cup

4

mirror

5

cardigan

6

window

7

Playing cards

8

Fork

9

Knife

10

Sweater

Name: _____ Class: _____

Here is Manu in his hardware store.

Use the words in the boxes below to label the objects correctly.

One has been done for you.

metal

paper

fabric

clay

glass

Plate
clay

paper

Cup
clay

mirror
glass

cardigan
fabric

window
glass

Playing cards
paper

Fork
metal

Knife
metal

Sweater
fabric

Name: _____ Class: _____

Colour in the waterproof materials.

Draw a cross through the non-waterproof materials.

Lunchbox

Baseball cap

Cardboard box

Cling film

Concrete

Brick

Plastic coat

Paper bag

Comic

Tissue

Plastic bag

Newspaper

Woollen scarf

Glass

Name: _____ Class: _____

Colour in the waterproof materials.

Draw a cross through the non-waterproof materials.

Lunchbox

Baseball cap

Cardboard box

Cling film

Concrete

Brick

Plastic coat

Paper bag

Comic

Tissue

Plastic bag

Newspaper

Woollen scarf

Glass

Name: _____ Class: _____

Here is Manu in his hardware store.

Use the words in the boxes below to label the objects correctly.

One has been done for you.

metal

paper

fabric

clay

glass

1

Plate

clay

2

paper

3

Cup

clay

4

mirror

glass

5

cardigan

fabric

6

window

glass

7

Playing cards

paper

8

Fork

metal

9

Knife

metal

10

Sweater

fabric

Name: _____ Class: _____

Color in the magnetic materials.

Draw a cross through the non-magnetic materials.

nails

soccer ball

apple

silverware

shoe

chair

book

old clothing

anchor

breakfast cereal

horseshoe

sword

Now draw and write the name of three more magnetic objects.

Name: _____ Class: _____

Choose 4 objects in the classroom and draw them below.
How could you sort each one?

Example:

My object is a...

red bus

I could sort this
with other...

**toys that are red,
have 4 wheels**

1

My object is a...

I could sort this
with other...

2

My object is a...

I could sort this
with other...

3

My object is a...

I could sort this
with other...

4

My object is a...

I could sort this
with other...

Name: _____ Class: _____

Choose 4 objects in the classroom and draw them below.
How could you sort each one?

Suggested answers

Example:

My object is a...

red bus

I could sort this
with other...

toys that are red,
have 4 wheels

1

My object is a...

brown bear

I could sort this
with other...

bears,
brown objects

2

My object is a...

red ball

I could sort this
with other...

red things,
different balls

3

My object is a...

blue jumper

I could sort this
with other...

clothes,
blue objects

4

My object is a...

green pencil

I could sort this
with other...

pencils,
green objects

Name: _____ Class: _____

Design your own sorting machine in the box below.

1

Look at the criteria below.

Draw some objects that would match the criteria in the boxes.

2

Waterproof

Not waterproof

Now think of two criteria of your own and draw some objects that match the criteria.

3

Name: _____ Class: _____

Design your own sorting machine in the box below.

1

Accept all reasonable responses

Look at the criteria below.

Draw some objects that would match the criteria in the boxes.

2

Suggested answers

Waterproof

Not waterproof

Now think of two criteria of your own and draw some objects that match the criteria.

3

Transparent

Opaque

Name: _____ Class: _____

Circle the things that are found naturally.

Draw an X through the things that are manufactured.

twig

wooden box

bone

soil

clothes

paper

salt

leather

glass bottle

wool

Name: _____ Class: _____

Circle the things that are found naturally.

Draw an X through the things that are manufactured.

wooden box

clothes

paper

leather

glass bottle

Name: _____ Class: _____

Design your own sorting machine in the box below.
Think about what it would look like and which criteria you would use to sort the objects.

My Sorting Machine

The criteria I would use to sort my objects would be:

1 _____

2 _____

The objects I would choose would be:

1 _____

2 _____

Name: _____ Class: _____

Design your own sorting machine in the box below.
Think about what it would look like and which criteria you would use to sort the objects.

My Sorting Machine

Suggested answers

The criteria I would use to sort my objects would be:

- 1 Shiny, not shiny**
- 2 Metallic, not metallic**

The objects I would choose would be:

- 1 Shiny – spoon, mirror. Not shiny – paper, carpet**
- 2 Heavy – chair, desk. Not heavy – book, pencil**

Name : _____

Class: _____

EducationCity

What questions could you ask about it?
Share your ideas with a partner.

What questions did you think of?

I thought of asking:

- Is it natural or man-made?
- Is it rough or smooth?
- Is it hard or soft?
- Is it bendy or not bendy?

Did you know that iron and steel are made from a natural material called iron ore?

Name : _____

Class: _____

In what ways are plastic and metal the same?

Name : _____

Class: _____

EducationCity

I thought that:

They are
both
strong.

They are
both are
long-lasting.

They can both
be used to
make things.

Sometimes
they can be
recycled.

Did you come up with any others?

Did you know that plastic is waterproof?
Some metals start to rust when they are wet.

Name: _____ Class: _____

Use the words below to show the correct properties for each of the materials.
One has been done for you.

light thin ~~thin~~ bendy smooth thin non-slip
waterproof a conductor of electricity bendy ~~flat~~
hardwearing not a conductor of electricity bendy
suitable to make wire stiff non-rip ~~light~~ light

- 1** Manu used **paper** for Granny's **notebook** because paper is:

thin
light
flat

- 2** Manu used **rubber** for the **soles** of Granny's **shoes** because rubber is:

- 3** Manu used **porcelain** for Granny's **cup** because porcelain is:

- 4** Manu used **fabric** for Granny's **curtains** because fabric is:

- 5** Manu used **copper** for the inside of Granny's **TV cable** because copper is:

- 6** Manu used **rubber** for the outside of Granny's **TV cable** because rubber is:

Name: _____ Class: _____

Connect the rocks to their uses by completing the sentences below. One has been done for you.

Sandstone

Marble

Clay

Diamonds

~~Limestone~~

Granite

Flint

Coal

Slate

Pumice

- ① **Limestone** _____ is used for making cement.
- ② _____ is used for making arrowheads.
- ③ _____ is used as a fuel.
- ④ _____ is used for decoration.
- ⑤ _____ is used for roofing.
- ⑥ _____ is used for jewelry.
- ⑦ _____ is used to make countertops.
- ⑧ _____ is used for carving ornaments.
- ⑨ _____ is used for making bricks.
- ⑩ _____ is used for rubbing off rough skin.

Name: _____ Class: _____

- ⑤ **Slate** _____ is used for roofing.
- ⑥ **Diamonds** _____ is used for jewelry.
- ⑦ **Granite** _____ is used to make countertops.
- ⑧ **Sandstone** _____ is used for carving ornaments.
- ⑨ **Clay** _____ is used for making bricks.
- ⑩ **Pumice** _____ is used for rubbing off rough skin.

Name: _____ Class: _____

Using the tables and cut-outs provided (see Resource Sheets), sort the objects into the tables. Then, look at the tables and use them to help you answer the following questions.

- 1** What differences are there between the objects that bend easily and the objects that do not bend easily?

- 2** What differences are there between the objects that twist easily and the objects that do not twist easily?

- 3** Can you describe any similarities between the two tables?

- 4** Is there anything interesting about some of the objects?

Name: _____ Class: _____

A stone

Modelling clay

Eraser

Sponge

Elastic band

String

Ball

Plastic straw

Metal spoon

Block of wood

A key

A toilet roll

A sheet of
toilet roll

A brick

A tube of
toothpaste

Name: _____ Class: _____

objects that will bend easily

objects that will not bend easily

Will it Bend?

Resource Sheet

Name: _____ Class: _____

objects that will twist easily

objects that will not twist easily

Name: _____ Class: _____

Using the tables and cut-outs provided (see Resource Sheets), sort the objects into the tables. Then, look at the tables and use them to help you answer the following questions.

1 What differences are there between the objects that bend easily and the objects that do not bend easily?

- Some of those that bend are flatter or thinner. Those that can't be bent are thicker.
- Some of those that bend are softer. Those that can't bend are hard.
- Some of those that bend can be squashed. Those that can't be bent, can't be squashed.

2 What differences are there between the objects that twist easily and the objects that do not twist easily?

- Some of the objects that twist are flatter or thinner. Those objects that can't be twisted are thicker objects.
- Some of the objects that twist are softer. Those that can't be twisted are hard.
- Some of the objects that twist can be squashed. Those that can't be twisted, can't be squashed.

3 Can you describe any similarities between the two tables?

- Nearly all of the objects that can be bent can also be twisted.
- The objects that can be bent have similar properties to those that can be twisted.

4 Is there anything interesting about some of the objects?

- A plastic straw can bend easily, but can't twist easily as it bends before it twists. It can only be made into a twisted shape by bending it several times.
- Toilet paper acts differently when it is made into a roll. It becomes harder to bend and twist.

We use plastic for **raincoats** because it is tough and waterproof.

Have you got a cosy warm fleece? Believe it or not it may be made from **recycled plastic bottles!**

About EducationCity

EducationCity produces fun, educational materials to engage students in learning and empower teachers to tailor their teaching. [Take a look at how EducationCity can support you in the classroom:](#)

Target Lesson Objectives Easily

Find relevant content that links to your curriculum by using our Curriculum Map or Search tool.

Comprehensive and clearly organised by strand, content is so easy to access!

Plan in Advance

When planning your lessons, choose your Activities in advance and put them into a MyCity so they're easy for students to access. Choose a meaningful name for each MyCity and you'll be able to update and retrieve them year after year!

Differentiated Teaching

Monitor progress with SuccessTracker and you'll be able to identify the strengths and areas of development for each of your students and so choose relevant activities to help them progress.

Flexible Learning

EducationCity is accessible via desktops, laptops, tablets and whiteboards, so can support you whatever equipment is available in your classroom.

Lesson Plans

Access our ready-made Lesson Plans and topical content to support teaching and learning in the classroom.

There's more to EducationCity than Activities alone!

Blog

Keep abreast of events in the teaching arena, changes to the resource, and see how EducationCity is supporting the education community.

“Teachers have been delighted with the content of this package and most impressed with how easy it is to find appropriate learning and teaching resources and then to use them in a variety of ways.”

Mark Sanderson,

Senior ICT Consultant, Herefordshire Learning and Achievement Service
