# Exact Path

## The right intervention, at the right time, for every student

Elevate your intervention capacity K–12 with diagnostic-driven learning paths in math, reading, and language arts for every student, and access to data-powered growth and proficiency focused instructional tools for every teacher.

### Students Exceed Growth Goals

All students access instruction at their ability level to close gaps, achieve on-grade success, and accelerate academic growth.
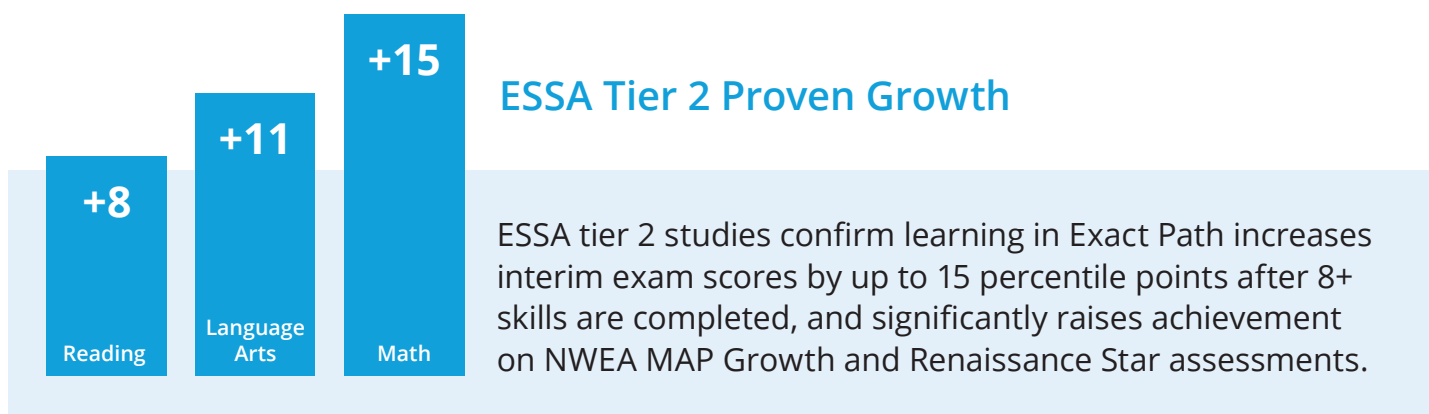

### Teachers Meet Every Learning Need

Teachers have the time and tools in every tier of learning to quickly close skill gaps, drive standards proficiency, and advance struggling students back to grade level.

### Administrators Scale Growth

School and district leaders gain access to powerful year-over-year growth and proficiency data to move the needle on state assessments and ESSA accountability.

# Remove the Barriers to Academic Growth for Every Student

No matter where your students are academically, Exact Path delivers adaptive, age-appropriate, personalized instruction in math, reading, and language arts based on valid and reliable assessment data. Kickstart learning with our Exact Path diagnostic or leverage your NWEA MAP Growth or Renaissance Star data without further testing.

**+8** Reading
**+11** Language Arts
**+15** Math

## ESSA Tier 2 Proven Growth

ESSA tier 2 studies confirm learning in Exact Path increases interim exam scores by up to 15 percentile points after 8+ skills are completed, and significantly raises achievement on NWEA MAP Growth and Renaissance Star assessments.

Exact Path's teaching tools are built to complement and maximize the instructional impact in every tier of learning. Standards proficiency practice informs grade-level instruction while our intervention priority dashboard and digital lessons streamline small-group and 1-1 intervention.

## Scaling Success Together

Your target outcome is our top priority. Here's how we'll get there:

| Optimize Rollout for Buy-In, Adoption, and Success | Coach to Identify and Address Top Intervention Priorities | Deepen Program Knowledge to Personalize Learning Across Tiers | Analyze and Reflect on Year-Over-Year Achievement Data |
